SUMMARY

Computer Science student with strong interest in cybersecurity, network security, and vulnerability analysis. Experienced in working with network monitoring tools, virtual lab environments, and machine learning-based attack detection projects. Seeking an entry-level role or internship to apply technical skills in cybersecurity and Networking.

EDUCATION

Bachelor of Technology in Computer Engineering

Madhuben and Bhanubhai Patel Institute of Technology

2023 – 2027

Sem 6 – 8.17 CGPA

PROJECTS

Phishing Attack Detection System

- Developed a system to identify phishing emails/websites using pattern analysis and feature-based detection
- Analyzed suspicious URLs, email content, and sender behavior
- Implemented detection logic to classify legitimate vs phishing attempts
- Focused on real-world phishing indicators like fake domains and deceptive links

MITM Attack Detection using Machine Learning

- Developed a Python-based system to analyze PCAP network traffic for detecting Man-in-the-Middle (MITM) attacks
- Extracted key features such as ARP requests, replies, and packet patterns to identify suspicious behavior
- Implemented a machine learning-based approach to calculate attack probability and detect anomalies
- Achieved accurate detection of ARP spoofing attacks in simulated environments

Data Duplication Alert System (DDAS)

- Designed a system to detect duplicate and redundant data entries in datasets
- Implemented logic to identify inconsistencies and generate real-time alerts for potential data issues
- Improved data integrity by reducing duplication and enhancing dataset reliability
- Built using Python and data processing techniques

TECHNICAL SKILLS

Programming Languages: Python, C++, Java (basic)

Cybersecurity & Networking Tools: Wireshark, Nmap, Burp Suite, OpenVAS

Technologies: Network Packet Analysis, ARP Spoofing Detection, Intrusion Detection Concepts, OS Administration, Networking Concepts

Non-Tech Skills: Workaholic, Problem Solving, Team Collaboration

Languages: English, Hindi, Gujarati

CERTIFICATIONS

EC-Council – Information Security Fundamentals

EC-Council – Information Security Analyst Professional Certificate

Google – Cybersecurity Professional Certificate

Microsoft – Introduction to Generative AI for Developers with Copilot

Microsoft – Boost Your Productivity with GitHub Copilot
